**Swinging Bridges
Street Scene**

Look what they made! Our August window showcases some of the wonderful work of our students!

Girls enjoying an art birthday party. Thanks to teacher, **Kathy Zehr** and helper, **Krystal Lyon!**

We love our workshops and classes! We all have so much fun! Pictured here: Sisters Delores, Darlene, Dorothy, Denise, and Dee. They celebrated their "Sisters Day" with us this year!

In Other News...

***WELCOME** to our new member, **John Gahm**. John comes to us from the Sauneman area and brings wonderful photographs taken on trips to Alaska and other places! Be sure to check out his work and watch for his gallery show (date yet to be determined.)

***A BIG THANKS** to **Robert McGee** for donating digital photographs for us to use for inspiration and fundraising.

***A SAD GOODBYE** to **Helen Krieger**, who has left us due to family obligations.

***Another BIG THANKS** to **BEHIND-THE-SCENES** people who do stuff we don't even know about!

Pam Beeson, Boris Boden, Juli Fraher, Denise Michelle, Darlene Miller. These people do so much to keep us up-to-date electronically – doing online and in-print promotions and keeping our "lists" up-to-date. Please say "thank you" when you see them. Also, **Brenda Thompson** for working on our GLCAC Scrapbook and **John Fitzgerald** for researching and compiling the 209 W. Madison building history.

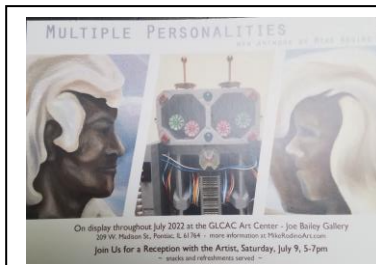

Good Gallery News!

Due to the generosity of our donors this year, with a special thanks to the **J. Paul Yost Trust**, we are working on several improvements for the Joe Bailey Gallery. First, we will be adding drywall to the east side of the gallery and next to the short, paneled wall between the old library and gallery. This will provide more space to hang more art! We have a bid for \$2200 from **Gary Bolt** for this work.

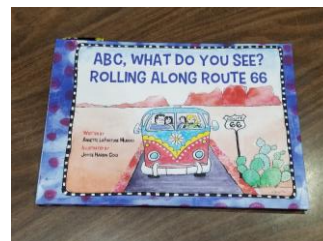

Also... Gary Bolt and Smith's Plumbing are working up an estimate to demolish the old bathrooms and closet area upstairs and put in a second ADA-Compliant restroom! This is something that has been on the wish list for quite awhile. We may be doing this one in phases, with the demolition and construction being done first and plumbing added as we can pay for it. Woo-hoo!
